Application/ Control Number: 10/820,963

Art Unit: 2618

## **DETAILED ACTION**

## **Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey W. Gluck # 44,457 on 13 May 2008.

The application has been amended as follows:

As to claim 21, line 2, -- a first data receiving circuit capable receiving data; -- is amended to – a first data receiving circuit to receive data; --.

Claim 21, line 3, -- capable of: -- is deleted and -- to: -- is inserted.

Claim 21, line 4, -- monitoring – is deleted and – monitor – is inserted.

Claim 21, line 5, -- operating -- is deleted and -- operate -- is inserted.

Claim 21, line 6, -- receiving – is deleted and – receive – is inserted.

Claim 21, line 7, -- processing – is deleted and – process – is inserted.

The examiner's amendment to claim 21 was determined to clarify the function of the apparatus rather than capable of.

## Allowable Subject Matter

Claims 1-37 and 56-60 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1, 10, 17, 21 and 29, the prior art made of record teaches devices of a MIMO WLAN system comprising receive (and transmit) spatial processors, a radio frequency multi antenna (video) data receiver comprising a multi-antenna signal processing circuit to process M independent RF modulated input signals using a Channel mixing matrix to extract N (video) data signals transmitted by N separate video camera radio module transmitters but does not teach a multi-antenna signal processing circuit to further utilize a signal from a second multi-antenna signal processing circuit to extract video data transmitted by the radio module transmitter and other radio module transmitters.

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Blane J. Jackson whose telephone number is (571) 272-7890. The examiner can normally be reached on Monday through Thursday, 8:30 AM-7:00 PM, EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Urban can be reached on (571) 272-7899. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
